Summary

Second-year IT student skilled in C, Python, and C++, with knowledge of web development and core concepts like OOP and data structures. Interested in AI and Machine Learning, with project-based learning experience. Passionate about problem-solving and actively participates in hackathons. Seeking internship opportunities to apply and enhance technical skills.

Education

Aditya Institute of Technology and Management

2024 – 2028 (Expected)

B.Tech in Information Technology

CGPA: 8.2 / 10

Technical Skills

- **Languages:** C, Python, C++
- **Web Technologies:** HTML, CSS, JavaScript
- **Core Concepts:** Object-Oriented Programming, Basic Data Structures
- **Tools:** Git (Basic), VS Code

Projects

AI Career Copilot – Multi-Agent Resume Analyzer

Tech Stack: Python, FastAPI, React, Claude AI, Gemini AI

- Developed an AI-based multi-agent system to evaluate resumes against job descriptions simulating real-world hiring processes.
- Implemented ATS scoring, skill gap analysis, and experience matching for candidate evaluation.
- Integrated Claude AI and Gemini AI to generate actionable insights and personalized improvement suggestions.
- Built a full-stack application using FastAPI and React for efficient and user-friendly career guidance.

MyndSET – AI-Based Mental Health Platform

- Built a secure mental health web application with AI-driven mood analysis and chatbot support.
- Implemented encrypted user data handling to ensure privacy and security.
- Developed features like daily check-ins, community support, and reward-based engagement.
- Focused on user well-being through intelligent insights and interactive design.

Creators Verse – AI Platform for Artists

- Proposed an AI-powered platform to protect and showcase original content for creators.
- Collaborated with a team to define features, user flow, and problem statements.
- Gained experience in ideation, teamwork, and technical presentations.

Hackathons

- **ZENTRO BYTE Hackathon – AITAM College**
Strengthened teamwork, time management, and presentation skills.
- **MidSPRINT 2K25 Hackathon – PSCMR College, Vijayawada**
Contributed to solution design and documentation under time constraints.
- **GDG Hackathon – GITAM College**
Improved communication and technical thinking in a competitive environment.

Activities & Interests

- Active participation in hackathons and tech events
- Interested in AI, startups, and product-based problem solving
